January 5, 1971

IN RE: DOCKET NO. 15077 - The application of Infinger Transportation Company, Inc., P. O. Box 4296, Charleston Heights, South Carolina, to amend Class E Certificate of Public Convenience and Necessity No. 960 B, which authorizes motor freight service over irregular routes as follows:

so when amended, Certificate will read as follows:

SULPHATE BLACK LIQUOR SKIMMINGS IN TANK VEHICLES: From points in Florence County to points and places in Charleston County, S. C.

A public hearing was held on original application, with Order No. 15210 being issued by the Commission, granting applicant's Petition for amendment to Class E Certificate of Public Convenience and Necessity No. 960 B. Subsequently, protestants Schwerman Trucking Co. and Chemical Leaman Tank Lines, Inc., through their Attorneys, Petitioned for a Rehearing on Docket No. 15077. The Commission, after a full discussion of this matter, issued Order No. 15237, reset Docket No. 15077 for a Rehearing Tuesday, November 24, 1970. At this hearing held November 24, 1970, Attorneys for protestants and applicants agreed that they would not offer any additional testimony but in its stead, they would file briefs returnable to the Commission by December 16, 1970.

After studying the briefs as filed, the Commission is of the opinion that the additional authorized service to applicant will not seriously affect protestants' operations in this state and will allow applicant the opportunity to serve the public.

Therefore, the application for Class E Certificate of Public Convenience and Necessity No. 960 B, to be amended, is approved.

AND IT IS SO ORDERED:
